My garage door was damaged in a recent storm and needed a quick replacement. Sharn was super quick to come get it fixed. If you are looking for a **garage door in Perth**, this is the place to go. Great service & highly recommended.

Sharn's service was second to none. Very polite, very friendly and most of all came on time and didn't charge an arm and a leg to do my repair. He explained everything and I couldn't recommend him highly enough. If your garage door needs attention, do yourself a favour and give them a call, you won't be disappointed.

Excellent Service and very friendly and professional. Our Garage Door broke and I couldn't get my car out. Sharn replied immediately to my enquiry on an early Saturday morning. He was at the house within hours and fixed the door on the spot for the price he originally quoted. I wish more companies were this reliable and offered such amazing service. Highly recommend

I have used A Grade Garage doors twice now, once for a regular service, the other for a new garage door motor. On both occasions I was impressed with the service, quality of work, price and equipment. (Plus they turn up on the agreed day/time).

Will definitely use again and can highly recommend.

Sharn responded promptly to my urgent request to fix a broken roller door motor. He did an excellent job at a really good price. He also checked and adjusted the operation of the roller door to ensure there were no other issues down the track.

I would highly recommend A Grade Garage Doors for a professional repair and service of their garage doors at a cost effect price.

Sharn did a great job repairing a broken spring on our garage door. He was prompt, clean, efficient and very helpful in all regards including helping me with another unrelated problem. I would strongly recommend him to anyone needing assistance in this field.

As our roller door was playing up we needed to call someone. We found Sharn at A Grade Garage Doors through Facebook. We ended up having the July service special on our door. Sharn was very prompt, friendly & professional. He also informed us the quoted price was actually more than what our door cost, and adjusted the price. I know a lot of people would happily charge us the higher amount as we wouldn't have been aware. We are very happy, and would not hesitate to recommend his business.

I had a garage door that suddenly stopped working. I dropped a message to Sharn at A Grade Garage Doors and he expertly diagnosed the problem and helped me fix it by myself. To guide me thru the issue, he even sent photos and detailed instructions on how to do it even though it was well past late evening and flatly refused to charge me anything for over the phone service. Sharn was outstandingly helpful and skillful and I would highly recommend him for all garage door issues. In an environment of dodgy tradies, Sharn comes out as honest, skillful and helpful.

Sharn was an absolute joy to deal with. He quoted immediately and was not only extremely well priced he was prompt and very professional. Our door has never worked as well or been so quiet. We will definitely use him again in the future and have no hesitation in recommending his friendly, professional business to anyone. Thank you Sharn :)

Excellent service! Sharn was professional, courteous, on-time, fast work and reasonable price. He was able to provide an accurate quote quickly after I sent him some pics of the damage over text, this made things very convenient for me and saves time. Would highly recommend. Thanks Sharn

A Grade Garage Doors has great service. I have had my roller door services with them and they are on time. They go out of their way to be friendly and professional, My roller door blew in during a storm and they came straight out 7.30 in the morning all fixed with no hassles or waiting. I highly recommend them with all your garage door needs.
